hactivist, Flynn is attempting to unmask the shadowy government agency known as The Grid and expose the reasons behind his father's disappearance. In episode 1-4, Flynn's trust in Crikey and his quest for his father is tested when one of his seemingly innocent programs is revealed to be a Trojan Horse planted by The Grid. Flynn's foray into The Grid is further complicated by a physical and mental breakdown by his sister Emily. Flynn is voiced by Dean Norris. He appears in his father's final appearance, the season 4 finale "When All Is Said and Done", which was not initially released as part of the season 4 DVD set. References

series endingsBoycott Next Gen is a site dedicated to bringing you the latest news about the latest platform used for internet access, also known as the 4G. As a provider of 4G service ourselves, we love to keep you updated on what the next big thing is and when it will be available in your area. The AT&T T-Mobile merger is coming soon. It's the end of an era. If you have one of these two major providers, you will soon be getting a 4G LTE phone. If you have ever talked to a person who is using a 4G device, you may think that 4G phones are for people who live in big cities. 4G phones are not just for major metropolitan areas. They can be found in rural communities as well. Next Gen has compiled a list of cities that are celebrating the fact that they have access to AT&T 4G LTE. If you live in one of the following cities you may see some real improvements in your internet speed. AT&T expects the T-Mobile merger to provide more signal strength to these areas. More 4G customers should translate to better service for consumers and businesses. Here is a full list of cities that will be seeing changes in the future. Let us know if you live in one of these cities, and what your thoughts are on the merger.#materials-12-00666-f012 82157476af
